ATC Ageless Center Exhibit Floor Guide

The therapeutic robot PARO is waiting for you!

PARO
'Paro', a robot in the form of a seal, was recognized in the Guinness Book of Records as the 'Most Therapeutic Robot' on the 26th February, 2002.

Zone D

This zone exhibits models of barrier-free housing and offers suggestions for a variety of situations such as the living room, kitchen, and bedroom.

Zone H

The purpose of the Active community plaza is to decrease the need for nursing care and is a community space for active seniors who wish to celebrate a bright, fun, and cheerful after-retirement life. Focusing on supporting elderlies 50 and over, we provide information on a wide range of topics such as lifestyles, hobbies, health, work, and active participation in society. In addition, we hold a large variety of events and seminars.

Experience Booth

A hands-on booth where you can experience how it feels to be elderly, or take a wheelchair or electric wheelchair for a test drive!

This booth is where you can learn about the environment from a variety of perspectives while actually sitting on a wheelchair and completing an obstacle course, or learning how it feels to be elderly through a simulation.

Electric Wheelchair Trial Booth

Experience the comfort and functionality of an electric wheelchair.

Wheelchair Trial Booth

Experience opening and closing doors and other obstacles while in a wheelchair.

Simulated Elderly Experience Booth

Put on the equipment and experience what it's like to be an elderly.

A display of mobility devices such as assistive vehicles and silver cars that safely broaden the mobility field, as well as an exhibition related to disaster prevention.

Active lifestyles - essential to good health. Products to assist a healthy lifestyle and a variety of products related to nursing care.

A variety of wheelchairs are displayed and you can test a wheelchair at the 'Wheelchair Trial Course' in the zone.

This zone is for designers and business people who are researching lifestyle items and easy-to-live-in housing for the aging society.
